

HVAC Emergency Response Policy

Document ID	HVAC-POL-2026	Status	current
Effective date	2026-01-01	Owner	Facilities Operations

Priority 1 HVAC incidents

An HVAC incident is Priority 1 (P1) when it creates an immediate life-safety risk, causes a complete loss of heating during freezing weather, causes a complete loss of cooling during an extreme-heat alert, or affects a critical mechanical room.

Required response targets

Action	Target
Acknowledge request	Within 15 minutes
Dispatch technician or approved vendor	Within 30 minutes
Target on-site arrival	Within 2 hours
Occupant update cadence	Every 60 minutes while materially affected

Incident record requirements

The incident owner must record the affected property, asset ID, symptoms, actions, timestamps, vendor, and final resolution.

For Priority 2 incidents, acknowledgment is required within 2 business hours and attendance is targeted within 1 business day.
