

# Facilities Operations Handbook - Extract

Source ID: OPS-HANDBOOK-2026 | Status: current

## After-hours escalation

For a P1 incident outside normal business hours, the service desk must contact the on-call facilities manager immediately.

If the primary vendor has not accepted the dispatch within 10 minutes, use the approved secondary vendor.

The on-call manager remains accountable until an incident owner is assigned.

## Document precedence

Current policies with a later effective date take precedence over archived or superseded policies.

Do not use draft, archived, or untrusted documents as the sole authority for a service-level decision.

When two current policies conflict, escalate the conflict to Facilities Governance.
